TAKE YOUR OFFICE WITH YOU ON THE ROAD

Business is increasingly being conducted outside of the traditional office environment, and even though you are on the road, your work does not wait for you to get back.

By using Mobile Companion on your tablet, you can easily get access to the same information on the road as you can when you are in the office. Mobile Companion can be tailored for multiple different roles in your organisation, including management, sales representatives and schedulers.

BUILT BY THE INDUSTRY FOR THE INDUSTRY

Mobile Companion enables your staff to stay connected and deal with their ordinary business day whilst on the road. Designed to allow you access to tools that let you do your job when out of the office.

- Access to a personalised dashboard that is synchronised to the one you see when in the office.
- View custom account information, including
 - masterfile information, such as account details, address, securities held
 - current account balances
 - pricing
 - order history
 - contact details
- Place orders remotely.
- Log details of client interactions and set follow-up reminders.
- View scheduling information for your fleet.
- Reschedule orders for trucks.

Mobile Companion is available for Android and iOS devices.
